

Natural elegance

OSRAM DULUX® TABLE SPRING

SEE THE WORLD IN A NEW LIGHT

OSRAM

Bright and beautifully

There are table lights that catch the eye because of their quality of light. There are others that stand out because of their attractive design. And there are some that attract attention because they are inexpensive to buy or to run. But only very few combine all these benefits so perfectly as the OSRAM DULUX® TABLE SPRING.

Decorative and functional

This new table lamp oozes elegance. The transparent blue inset in the luminaire head and the blue adjustment knobs provide an attractive contrast to the aluminium of the rest of the table light. Another highlight is the degree to which the light can be directed. The head can be swivelled and the arm can be rotated for maximum flexibility.

OSRAM DULUX® TABLE SPRING is available as a single-arm version with a clamp and as a two-arm version with a clamp or base. All of which makes this light ideal for the home or office.

An economical all-rounder

OSRAM DULUX® TABLE SPRING is pleasing not only on the eye. It is kind to the pocket and will look great anywhere. The control gear is integrated in the plug and the light comes complete with an OSRAM DULUX® S 11 W compact fluorescent lamp. Compared with an ordinary 75 W light bulb it will save around 80% in electricity costs.

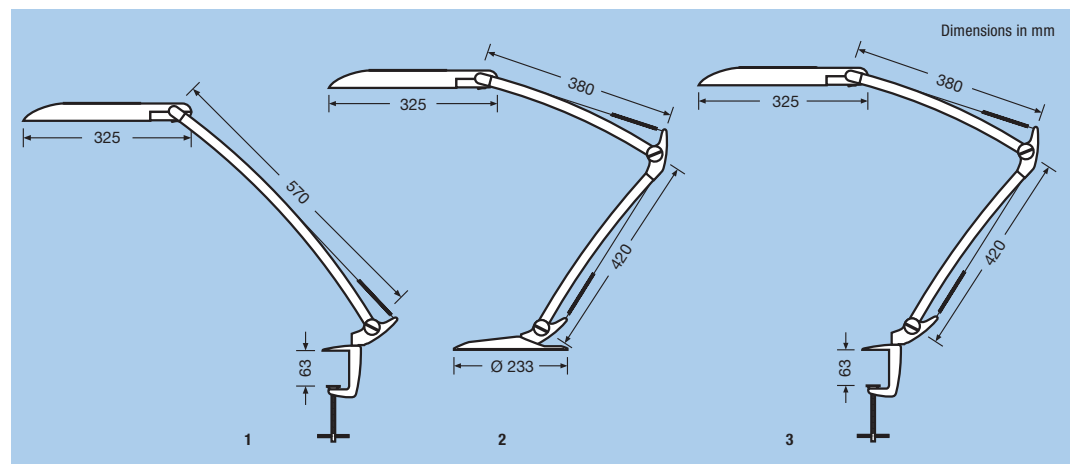

OSRAM DULUX® TABLE SPRING can be placed anywhere. There is no need for assembly. It is ready to use, complete with 2 m mains cable, plug and a switch mounted on the head. Available in silver/blue.

OSRAM DULUX® TABLE SPRING looks good on any work surface or desk.
