

Lightbar FX250-SP

Higher luminosity for improved road safety

Spot Beam

Highly concentrated light beam

Lighting distance up to 360 meters

Improved far and near field illumination

Beam angle 5°

Exceptionally focused beam angle

High-performance LED auxiliary lights are permitted for use and improve visibility on roads

Not only does reliable and brilliant light improve visibility for drivers, above all, it improves safety on the road. The LEDriving Lightbar FX250-SP automotive auxiliary light gives drivers a powerful supplemental high beam that is approved for use on roads.

Even in difficult visibility conditions, the LED auxiliary light provides better perception of oncoming traffic with ten high-performance LEDs and 2700 lumen. Along with improving one's own safety, it improves road safety overall.

The intelligent reflector design of the LED high beam offers extreme efficiency with even light distribution. The highly concentrated light greatly improves far field illumination. The light beam from the LED automotive headlight reaches up to 360 meters.

Durability & wide range of applications

Daily use demands quite a bit from a vehicle. The stress doesn't stop at the LED auxiliary light. This is why it is equipped with an extremely robust polycarbonate lens that can withstand even harsh conditions for longer periods.

But high-quality materials aren't the only factor contributing to its durability: The integrated driver and thermal management system also plays a role in the long lifetime of the LED high beam light.

Over and under voltage protection ensure that the circuit is automatically shut off when power exceeds the predetermined current for a specified amount of time. This temporarily prevents overheating and extends the lifetime of the LED auxiliary light.

More light is important, and not only on roads: Powerful lighting is important off-road, on unlit dirt or forest roads and in agriculture.

This is why the LEDriving Lightbar FX250-SP LED auxiliary light can be easily installed on 4x4 and utility vehicles, and industrial and construction vehicles.

Product family datasheet

Technical data

	Electrical Data		Photometric Data	Lifetime Data	Environmental & Regulatory Information Information according Art. 33 of EU Regulation (EC) 1907/2006 (REACH)
Product description	Nominal wattage	Test voltage	Nominal luminous flux	Lifespan Tc	Primary article identifier
Lightbar FX250-SP	35.00 W	13.5 V	2700 lm	5000 hr	4052899595330

Product description	Candidate list substance 1	CAS No. of substance 1	Safe use instruction	Declaration no. in SCIP database
Lightbar FX250-SP	Lead	7439-92-1	The identification of the Candidate List substance is sufficient to allow safe use of the article.	1e68ab0c-fc67-4595-92b2-f7f1f760842a
