

BATTERYcharge 813

Charge and maintain your vehicle battery to help extend battery life.

Start stop safety features

Integrated safety protections deliver effortless, worry-free operation for all users

One touch button operation it provides 7 stage charging cycle for Lithium batteries and a 9-stage cycle of Lead Acid/AGM batteries.

Connect and be sure that the car battery will be fully charged and automatically adjusts to long-term maintenance mode when the battery is full

6 & 12 Volt

Great for all non-commercial vehicles

Meet the OSRAM BATTERYcharge 813, a compact 3A smart charger designed for simple, reliable maintenance of 12V batteries, including Lithium — ideal for smaller vehicles and everyday use.

Its fully automatic 7-stage charging cycle delivers safe, efficient performance while helping to extend battery life. An integrated maintenance mode keeps batteries in peak condition during periods of inactivity, making it a perfect solution for seasonal vehicles, motorbikes, or occasional drivers.

Ease of use is central to its design, with single-button operation and clear LED indicators providing instant charging updates. With 3m of cable length, the 813 offers flexible access across a range of vehicle setups.

Built to perform in real-world conditions, the IP65-rated housing protects against dust and water, while integrated safety features — including reverse polarity, short circuit, and overvoltage protection — ensure dependable operation. Compact, practical, and easy to trust, the OSRAM BATTERYcharge 813 is the ideal choice for straightforward, everyday battery care.
